Formation

HETIC "Grande Ecole" course
– 2024

High School Diploma, Science Track
– 2019

Languages

French > Native
English > Professional
Arabic > Professional

Skills

- Remix.js
- React.js
- Next.js
- Rest APIs
- Node.js
- GSAP
- Python
- Nuxt.js
- TypeScript
- AWS
- Cloudflare
- Shopify
- Hydrogen
- Oxygen
- Symfony
- Figma
- Storyblok

Interests

- Sport
- Design
- New technologies
- Music
- Travel

Professional experiences

Sparkles > Co-Founder & CTO

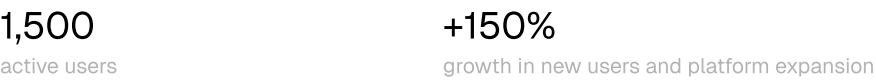

2025 - TODAY • PARIS, FRANCE

Co-founded and led the architecture of an AI-driven platform using Next.js, Supabase, and Cloudflare.

Built hybrid memory and REST APIs for scalable personalization and user sessions.

> [Sparkles App – September 2025](#)

Designed and launched an AI-powered app using Next.js, Supabase, Cloudflare, and vector search.
Developed hybrid memory and scalable REST APIs for user sessions, media, and personalization.

WIZ > Full-Stack Developer

2024 - TODAY • PARIS, FRANCE

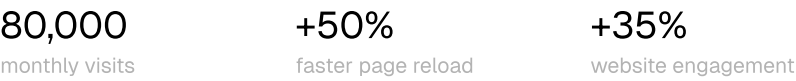

Expanded to full-stack scope across frontend and backend. Focused on performance optimization, API design, and scalable architectures with cross-functional teams.

> [Richard Milles – Coming Soon](#)

Led frontend architecture for new global site using Next.js, Storyblok, and multi-locales support (10+ locales).
Implemented incremental static regeneration and advanced caching.

> [Courchevel – 2024](#)

Developed tourism platform with real-time data and multilingual SEO optimization.

> [Ex-Nihilo – 2024](#)

Built high-performance e-commerce site using **Remix + Shopify Hydrogen/Oxygen**.
Optimized CDN and caching, reducing TTFB by 40%.

LG2 > Full-Stack Developer

2023 • MONTREAL, CANADA

Trained in UI architecture, animations, and high-performance frontend systems. Laid foundation in software design and technical precision.
